

MICHAEL ROBERT JIMENEZ, M.Sc.

mail@mrj.at <https://mrj.at/> ORCID: 0000-0001-7212-764X

OVERVIEW

■ external links

I am looking for jobs that not only have a focus on problem-solving but also problem-understanding to find better solutions and implementations. I thrive on abstract concepts and by discussing them with others. Always tinkering and learning.

Interests: Math, Social Science, languages, sculpture, drawing, photography, graphic design, Linux, programming

SKILLS

Computer: bash, GIMP, git, Inkscape, $\text{\LaTeX}$, Linux (Debian), office programs, R, Scheme/Lisp/Racket, vim.

Languages: English (native), German (ca. C1), Polish (ca. A1).

Soft: processing complicated information, teaching difficult topics to others, creating from abstraction, documenting complex structures.

EDUCATION

Universität für angewandte Kunst Wien, Vienna, Austria October 2020 –
M.A. in **Transdisciplinary Art (TransArts)**

Technische Universität Wien, Vienna, Austria October 2016 –
Ph.D. in **Mathematics**

Universität Bonn, Bonn, Germany October 2012 – September 2015
M.Sc. in **Mathematics**

Princeton University, Princeton, NJ, U.S.A. September 2008 – June 2012
A.B. in **Mathematics**

WORK EXPERIENCE

FH Technikum Wien, *External Lecturer*, Vienna, Austria October – November 2024
Taught a warm-up course in linear Algebra for students in the Data Science Master's program

Deloitte Österreich, *FSI Auditor*, Vienna, Austria 9 January – 30 September 2023
Worked on developing R code to help audit bank portfolios according to IFRS9

Universität Wien, Student Service Center Mathematics, *Assistant* Vienna, Austria 1 July 2022 – 30 June 2023
Managed and helped translate the website, helped scripting tasks

Technische Universität Wien, *Project Assistant*, Vienna, Austria 1 October 2016 – 31 December 2020
— Researched about special classes of geometric surfaces for an **EU project** and third-party projects
— Developed C++ code to optimize meshes of geometrical surfaces for application in architecture

SAP Service & Support Centre, *Support Engineer*, Dublin, Ireland 14 March – 13 September 2016
Worked on insurance software development

Max Planck Institute for Mathematics, *Scientific Assistant*, Bonn, Germany March 2013 – June 2015
 $\text{\LaTeX}$ -ed several chapters for the fourth edition of Prof. Dale Husemöller's textbook *Fibre Bundles*, under supervision of Dr. Alexander Weisse

Princeton University, Civil Engineering Department, *Lab Assistant*, Princeton, NJ, U.S.A. June – August 2012
— Designed a couple of interactive demonstrations of the Physics of magnetism and telegraphy
— Systematized the restoration of a vintage PDP 8/L computer, including both replacing hardware on its flip-chip modules, and debugging memory reading/writing

Princeton University, Physics Department, *Research Assistant*, Princeton, NJ, U.S.A. June – August 2011
Calculated, with Python, estimate Mueller matrices for linear optics in an ABS half-wave plate

Princeton University, Civil Engineering Department, *Lab Assistant*, Princeton, NJ, U.S.A. June – August 2010
Developed six hands-on laboratory demonstrations about the Physics behind radio transmission

Princeton University, Astrophysics Department, *Research Assistant*, Princeton, NJ, U.S.A. June – August 2009
— Worked with FORTRAN code to run particle-in-cell simulations of particle acceleration in plasma
— Coded in IDL in order to analysis and interpret the output data
